

## Say it with Cocoa Amore

Most people think we specialise in chocolate, we do – but that's not really it. We create positive feelings and impressions, through the combination of taste, smell, touch & nostalgia. These powerful impressions are then captured and stored in the mind as long-lasting memories.

We are a local company with national reach. You may have seen us collaborating with Cadbury or Visa on their recent TV, Billboard and Social Media Campaigns. It's easy to see why we have been selected by FTSE 250 companies to welcome back over 20,000 valued employees and clients so far this year.

We have a talented design team poised to create a beautifully designed sleeves, tags and wrappers to enhance any campaigns you plan to run.
